2. Hazard(s) Identification

**Physical Hazards**
- Flammable liquids
  - Category 3

**Health Hazards**
- Skin irritation
  - Category 2
- Eye irritation
  - Category 2A
- Aspiration hazard
  - Category 1

**Environmental Hazards**
- Not classified

**Label Elements**
- Signal Word: DANGER

**Hazard Statement(s)**
- H226 Flammable liquid and vapor.
- H304 May be fatal if swallowed and enters airways.
- H315 Causes skin irritation.
- H319 Causes serious eye irritation.

**Precautionary Statement(s)**
- P210 Keep away from heat / sparks / open flames / hot surfaces. No smoking.
- P233 Keep container tightly closed.
- P240 Ground / bond container and receiving equipment.
- P241 Use explosion-proof electrical / ventilating / lighting / equipment.
- P242 Use only non-sparking tools.
3. Ingredient Composition and Classification

</tr>
</tbody>
</table>

4. First Aid Measures

**Inhalation**
If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.

**Skin Contact**
Wash off with soap and plenty of water. Consult a physician.

**Eye Contact**
Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.

**Ingestion**
Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.

**General Advice**
Consult a physician. Show this safety data sheet to the doctor in attendance. Move out of dangerous area.
5. Firefighting Measures

**Extinguishing Media**
Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

**Firefighting Procedures**
Wear self-contained breathing apparatus for firefighting if necessary.

**Hazards and Concerns**
Carbon oxides.

6. Accidental Release Measures

**Precautions and Procedures**
Use personal protective equipment. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas. Prevent further leakage or spillage if safe to do so. Do not let product enter drains.

**Containment and Cleaning**
Contain spillage, and then collect with an electrically protected vacuum cleaner or by wet-brushing and place in container for disposal according to local regulations.

**Environmental Precautions**
-  

7. Handling, Storage, and Disposal

**Precautions for Safe Handling**
Avoid contact with skin and eyes. Avoid inhalation of vapor or mist. Keep away from sources of ignition. No smoking. Take measures to prevent the buildup of electrostatic charge. Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.

**Conditions for Safe Storage**
Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Recommended storage temperature: 2-8°C. Store under inert gas. Air sensitive.

**Disposal**
Burn in a chemical incinerator equipped with an afterburner and scrubber but exert extra care in igniting as this material is highly flammable. Offer surplus and non-recyclable solutions to a licensed disposal company. Contact a licensed professional waste disposal service to dispose of this material.

8. Physical and Chemical Properties

**Vapor Pressure**
9 hPa (7 mmHg) at 20°C (68°F)

**Vapor Density**
4.7 g/cm³

**Auto Ignition Temperature**
255°C (491°F)
9. Stability and Reactivity

**Stability**
Stable under recommended storage conditions.

**Incompatibility**
Strong oxidizing agents. Heat, flames and sparks.

12. Regulatory Information

SARA 302 Components: No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

SARA 313 Components: This material does not contain any chemical components with known CAS numbers that exceed the threshold reporting levels established by SARA Title III, Section 313.

SARA 311 / 312 Hazards: Fire hazard, acute health hazard

Right to Know Components (Pennsylvania, New Jersey): 7-Methyl-3-methyleneocta-1,6-diene, CAS-No. 123-35-3

California Prop. 65 Components: This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.

NFPA Rating: Health hazard - 2
Fire hazard - 2
Reactivity hazard - 0
Special hazard - N/A

13. Other Information

True Terpenes cannot anticipate all conditions under which this information and its product, or the products of other manufacturers in combination with its product, may be used. It is the user's responsibility to ensure safe conditions for handling, storage and disposal of the product, and to assume liability for loss, injury, damage or expense due to improper use. The information in the sheet was written based on the best knowledge and experience currently available. The above information relates only to this product and not to its use in combination with any other material or any particular process and is designed only as guidance for the safe handling, use, processing, storage, transportation, disposal and should not be considered as a guarantee or quality specification. The above information is based on data provided by and collected from recognized sources such as distributors, manufacturers, and technical groups and is considered to be accurate to the best of True Terpenes' knowledge as of the date of this document. It is the responsibility of the user to review all safety information about this product and determine its safety and suitability in their own processes and operations. Appropriate warnings and safe handling procedures should be provided to all handlers and users, taking into account the intended use and the specific conditions and factors relating to such use in accordance with all applicable laws and regulations.
